N.1 - April 2010

[AlertInf: emergence predictive model for weed control in maize in Veneto .](#)

R. Masin, G. Cacciatori, M.C. Zuin e G. Zanin

[Agro-Hydrological models to schedule irrigation of Mediterranean tree crops.](#)

G. Rallo, C. Agnese, F. Blanda, M. Mincapilli e G. Provenzano

[Systems to evaluate the effects of atmospheric CO₂ concentration on field crops: a review of open top chambers.](#) [sp;](#) [&nb](#)

L. D'Andrea e M. Rinaldi

[Relationships between vegetative-reproductive phases of plant species and the meteorological variables in a phenological garden of Central Italy.](#) [sp;](#)

F. Orlandi, T. Bonofiglio, L. Ruga, C. Sgromo, B. Romano e M. Fornaciari

[Climatic variability in Tuscany: omogeneity methods of climatic data and analysis of impacts on grapevine and olive trees.](#)

A. Puglisi, G. Bartollini e S. Orlandini

[Scie chimiche](#)

L. Mariani

N.2 - August 2010

[Application of non-linear temperature forecast post-processing technique for the optimization of powdery mildew protection on strawberry.](#)

E. Eccel, S. Fratton, L. Ghielmi, A. Tizianel, D. Shtienberg e I. Pertot

[Dinamica temporale della volatilizzazione dell'ammoniaca da terreni agricoli: misure micrometeorologiche su liquami e urea.](#)

R.M. Ferrara

[The use of crop coefficient approach to estimate actual evapotranspiration: a critical review for major crops under Mediterranean climate.](#) □

P. Lazzara e G. Rana

[What we can ask to hourly temperature recording. Part I: Statistical vs. meteorological meaning of minimum temperature.](#) □

E. Eccel

[What we can ask to hourly temperature recording. Part II: hourly interpolation of temperatures for climatology and modelling.](#)

E. Eccel

[*Triticum aestivum* L. Phenological response to air temperature in Greece.](#) □

A. Kamoutsis, A. Matsoukis e A. Chronopoulou-Sereli

N.3 - December 2010

[Irri4web: crop water needs definition by webGIS.](#)

F. Zottele, G. Toller e E. Eccel

[La siccità nelle Marche nel periodo 1961-2009.](#) □

S. Leonesi e D. Tognetti

[Adaptation to climate change and mitigation strategies in cultivated and natural environments. A review.](#) □

E. Chatzidaki e F. Ventura

[Numerical Weather Prediction Models' Temperature Post-Processing in Heat Wave Early Warning in Umbria: a Case Study and Preliminary Results.](#) □

R. Zauri, R. Schiaroli, F. Governatori Leonardi e N. Berni

[Attività di monitoraggio nelle acque e nei suoli pugliesi a supporto delle strategie gestionali per la riduzione e razionalizzazione del consumo dei fertilizzanti.](#) □

V. Ancona, V. Uricchio, N. Lopez, G. Caniglia e S. Ripa

[I venticinque anni di ARPA-SIMC.](#) □

V. Marletto
