N.1 - aprile 2017

[Characterization of Inter-seasonal Climatic Variability through Dry-season Rice productivity in the North-west Region of Bangladesh.](#)

M. Maniruzzaman, M. A. Muttaleb, A. K. Choudhury, S. Akhter, F. Ahmed, M. A. Aziz, M. M. Rahman, M. M. Miah, J. C. Biswas, M. A. Hamid, N. Kalra

[Estimation and trend evaluation of reference evapotranspiration in a humid region.](#)

Mohammad Valipour, Mohammad Ali Gholami Sefdkouhi, Mojtaba Khoshravesh

[Vegetative characteristics and biomass production of two hybrid Poplar clones in relation to the environmental conditions in the Velino river hydrographic basin \(central Italy\).](#)

Fabio Orlandi, Tommaso Bonofiglio, Luigia Ruga, Marco Fornaciari

[Short-term effects of conversion to no-tillage on respiration and chemical - physical properties of the soil: a case study in a wheat cropping system in semi-dry environment.](#)

Rossana Monica Ferrara, Gianluigi Mazzaa, Cristina Muschitiello, Mirko Castellini, Anna Maria Stellacci, Alejandra Navarro, Alessandra Lagomarsino, Carolina Vitti, Roberta Rossi, Gianfranco Rana

[Does complex always mean powerful? A comparison of eight methods for interpolation of climatic data in Mediterranean area.](#)

Maurizio Marchi, Ugo Chiavetta, Cristiano Castaldi, Fulvio Ducci

N.2 - agosto 2017

[Neural Network modeling of automatic air temperature time series.](#)

Joanna Kajewska-Szkudlarek

Testing of WRF parameterizations with X-band radar data in a convective rainfall event.

Stefania Bolla, Marco Branca, Claudio Cassardo, Silvia Ferrarese, Riccardo Notarpietro

[Field irrigation management through soil water potential measurements: a review.](#)

Andrea Bianchi, Daniele Masseroni, Martin Thalheimer, Leonardo Olivera de Medici, Arianna Facchi

[Impact of climate change on olive growth suitability, water requirements and yield in Montenegro.](#)

Mirko Knezevic, Ljubomir Zivotic, Veljko Perovic, Ana Topalovic, Mladen Todorovic

[Historical climatology research: the concept of "climate change" over time.](#)

Luigi Iafrate, Stanislao Esposito, Maria Carmen Beltrano

N.3 - Dicembre 2017

[Association of agronomical, morphological and anatomical traits with compensatory effect of stem reserve mobilization in common wheat genotypes under drought stress](#)

Jasna Savić, Vesna Kandić, Dragana Rančić, Ilinka Pećinar, Aleksandra Šešlija, Dragana Ivanović, Kamenko Bratković, Dejan Dodig.

[Validating spatiotemporal predictions of western corn rootworm at the regional scale \(Tuscany, central Italy\)](#)

Susanna Marchi, Diego Guidotti, Massimo Ricciolini, Ruggero Petacchi.

[Analysing phenological features in natural and semi-natural environments next to cultivated fields as a prerequisite for potential pollen flow evaluation](#)

Valeria Tomaselli, Matteo De Vincenzi, Cristina Fasciano, Alessandro Materassi, Giuseppe Veronico, Donatella Paffetti, Cristina Vettori.

[Modeling of Soil Water Content for Vegetated Surface by Artificial Neural Network and Adaptive Neuro-Fuzzy Inference System](#)

Levent Şaylan, Reiji Kimura, Barış Çaldağ, Nilcan Akataş.
